Generate the Report

Enterprise specific business specific

1. Quality of generation

Deep eval

RAGAS

Guardrails AI

analysis

2. Add the Guardrails wherever you can

3. Add the Refinement your workflow

4. Add the LongSmith dashboard just to track the entire LLM APP

Little more enhancement UI

1. Give option to user to pers. max. analyst no.

2. After creating the analyst showcase that info over UI just to verify
